

## **How to download your sequence files**

- DNA sequences will be available in 2 days after they are submitted.
- For LSUHSC system users: Please submit your full name and LSUHSC e-mail address to the Genomic Core, we will ask the LSUHSC computer service to give you a permission to download your sequence at Genomic Core.
- Once your sequence is done, we will send an e-mail to you and you can go to the following website to pick up your sequence:

<http://www.medschool.lsuhs.edu/genetics/genomicscore/DownloadingProcess.html>

Please use your LSU ID (**lsumc-master\YOUR LSU ID**) and password to login at the security prompt. You must save the files onto your computer first before trying to open them.

- After 3 months, your sequence will be removed from our website, so please make sure you download your sequence.
- For outside LSUHSC system user, please provide us your e-mail address and we will e-mail the sequence result to you.
