

The Orfeome Collaboration Complete Human Collection and the hOrfeome supplemental library were purchased from Dharmacon GE Healthcare under an agreement restricting use of its contents to Princeton University researchers. Under no circumstance can these strains or plasmids be transferred outside the University. Any anticipated need for sharing derivatives of the plasmids for any purpose, including collaborations or for reproduction of published results, must be communicated to University Intellectual Property personnel who must, in consultation with Dharmacon GE Healthcare, approve any transfer of material. Please contact Sandy Silverman and Kara Dolinski if you need to request such a transfer.

I agree to the terms of use of the Orfeome collection and supplemental library.
